

For FOUND animals

- Use this "Found!" flyer as a template
- NO PHOTOS! You want callers to identify the animal without having seen a photo first. This is for the safety of the animal and for you!
- Use minimal detail as this prevents anyone who is not the owner to claim the animal. Make sure to ask anyone who contacts you if the animal has any distinguishing features such as scars, colors, tattoos, etc before allowing the animal out of your care.
- Use the large blank area on the flyer to fill in the type of animal (cat, dog, horse etc) and it's gender.
- Post at all entrances and major intersections and take to your local shops, post offices, vet offices, etc in your area within a 2-5 mile radius from where you found the animal. Animals can travel long distances - especially if they were frightened at the time.
- If the animal has any injuries, is flea or tick infested or appears extremely thin, a visit to a vet is advised.
- We suggest waiting 7-14 days before taking down the flyers.
- If you choose to keep the animal, be aware that all domesticated animals are considered property in the State of North Carolina.
